The notice should explain in detail when payments were made to class members, the number of members who were sent payments, the total amount of money paid out to members, the number of cashed and uncashed checks, the number of members who could not be contacted (if any), any significant or recurring concerns communicated by members to the settlement administrator and counsel since final approval, any other issues in settlement administration since final approval, and how any concerns or issues were resolved. The notice should include a detailed report on the credit impact damages and credit repair processes, explaining any issues that arise in the implementation of these aspects of the settlement. Class counsel are expected to diligently supervise the administration of the settlement and remain in close contact with the settlement administrator.
